EVL-3

Three Phase Meter with Energy Logger

Pendrive Upto 16GB

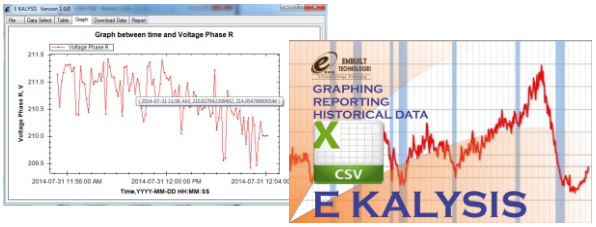

FEATURES

- **Pen-Drive data logging up-to 16GB**
- **Internal Data Storage up-to 32000 Tests**
- **Class 0.2 accuracy metering**
- **Operator easily set data logging time period**
- **Measurement of All Electrical parameters**
- **Configurable CT/PT Ratio**
- **Automatic Data Logging**
- **Measuring Parameters**
  Volt, Amp, Watt, F, PF, KWh, KVAh

Round the clock logging
on Pen drive with real time clock

Software Provided For Graphing And Reporting

MEASURING PARAMETERS

All Electrical Parameters:

Parameter	R	Y	B	Avg/Total
Voltage (phase- N)	✓	✓	✓	A
Current	✓	✓	✓	T
Wattage	✓	✓	✓	T
PF	✓	✓	✓	A
KWh	✓	✓	✓	T
KVAh	✓	✓	✓	T
KVARh	-	-	-	T
Frequency	Any phase with voltage and current			

Compatible with CLAMP-ON CTs

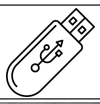

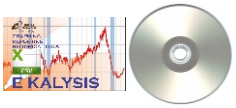

Compatible with Clamp-on CTs
(RISH clamp 1000A~)

TECHNICAL SPECIFICATION

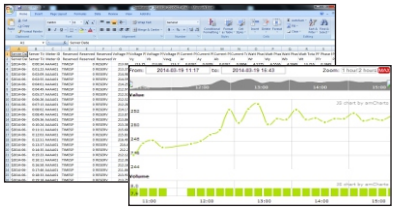

Measurement range (can be extend by using CT/PT)	Voltage : 20 - 500 V 30-600 V (phase to phase)
	Current : 20mA - 5A (20A also available)
Auxiliary power	180 - 250 V
Accuracy	Class 0.2

ACCESSORIES

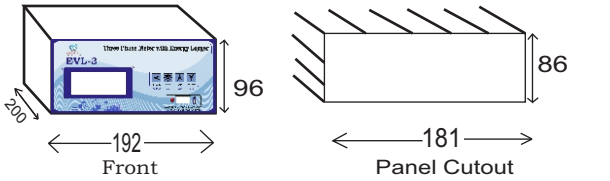

Manual	
8GB Pen drive	
Screwing clamps	
E kalysis Software CD
